*12 Notably planets do not make many Major aspects between on another and tangibly all have one major aspect, meaning there is on a practical level little to hold on to or to direct. Solar eclipse in Virgo in the 12th house sextile Saturn. Saturn gives correction and authority and supports with no further major aspects in this horoscope.

*12a Saturn is in a reception with Pluto conjunct the Diamond and sextile Sun and Moon in Virgo in the 12th house opposite Chiron in Pisces. Saturn triangle Chiron. This gives the Solar eclipse a lot of power to manifest.

*15 Solar eclips: corrected Black Moon in Virgo 12th house and not corrected Black Moon in Libra 1st house opposite Chiron in Pisces (big orb), conjunct corrected Priapus in Pisces 6th house and not corrected Priapus in Aries 7th house. The energy of the not corrected Black Moon (silent core of our being) is in the 1st house and is the core of the cosmic flow.

*16 Survivalpoint in the horoscope: Chiron, corrected Priapus in Pisces 6th house, Priapus in Aries, Southern Lunar Node in Aries 7th house. When inner core energy is grounded in life, the survival point will become a grounding point for your inner core energy. This will be in Pisces in the 6th house and in Aries in the 7th house (renewal, initiation of the new). The whole process begins by being an observer, because of the placement of the eclipse in Virgo conjunct the corrected Black Moon in Virgo.

*17 Black Sun in Cancer 10th house, flows to Diamond in the 4th house conjunct Pluto in Capricorn.
